

Features

1. **Touch key operation**

A control panel with four touch buttons is concealed in the side of the seat. This allows the back and leg section to be adjusted steplessly.

2. **Smart- armrests**

The smart armrests automatically move with the seat position for maximum comfort in any position. The armrests are covered in leather.

3. **Swivel base**

The chair has a modern designed base and can rotate 360 degrees.

4. **Cordless electrically adjustable**

The relax chair is equipped with a rechargeable battery. The chair has no electrical cords.

5. **High quality leather version**

The chair is made of high-quality leather.

6. **Head swing**

Additional adjustable headrest that allows you to adjust the head section in multiple angles. So you can read comfortably even in a lying position.
